

# BENTON PARK WEST

## SPRING 2022 TREE GIVEAWAY

BPWNA's Facebook group raised \$300 in February to plant 10 Missouri-native trees in BPW homeowners' yards.

Visit the FB group on March 1 at 6 pm to request a tree for your front or back yard! The first 10 people to ask for a tree will receive one.

Giveaway organizers will plant the tree for you in mid to late March.

Most land in STL is private property, so this project aims to increase the STL tree canopy by greening your yard! Even small yards can participate; all species of trees available are small to medium in size.

These species will be available:

- Black Chokeberry
- Downy Serviceberry
- Eastern Redbud
- Flowering Dogwood
- Gray Dogwood
- Nannyberry Viburnum
- Paw Paw
- White Fringetree
- Wild Plum
- Witch Hazel

Detailed info on tree species at
